Pathways for orofacial pain sensation in the trigeminal brainstem nuclear complex of the Macaque monkey, 563
Trigeminal neuralgia
Tic convulsif: results in 11 cases treated with microvascular decompression of the fifth and seventh cranial nerves, 949
Trigeminal neuralgia associated with seizure and syncope. Case report, 594
Trochlear nerve
Return of function after intracranial suture of the trochlear nerve. Case report, 191
Tuberculous meningitis
Chiasmal osteoma following tuberculous meningitis. Case report, 184
Tuberculum sellae
Surgical management of suprasellar meningioma. Part 1: The influence of tumor size, duration of symptoms, and microsurgery on surgical outcome in 101 consecutive cases, 633
Tumor model
Comparison of various methods for delivering radiolabeled monoclonal antibody to normal rat brain, 901
Growth-inhibitory effect of prostaglandin D_2 on mouse glioma cells, 912
Intramedullary canine spinal cord tumor model, 761

Ultrasonography
The false fontanel, 71
Ultrastructural study
Human umbilical artery for microvascular grafting. Experimental study in the rat, 737
Morphological changes of the basilar artery, ventricles, and choroid plexus after experimental SAH, 486
Ultrastructural alterations in blood vessels of the white matter after experimental spinal cord trauma, 539
Ultrastructure of early calcification in cervical ossification of the posterior longitudinal ligament, 131
Umbilical artery
Human umbilical artery for microvascular grafting. Experimental study in the rat, 737
Uncodiscal approach
Transuncodiscal approach to dumbbell tumors of the cervical spinal canal, 1100
Urokinase
CT-guided stereotaxic evacuation of hypertensive intracerebral hematomas, 440
Uveitis
Combined malignant lymphoma of the eye and CNS (reticulum-cell sarcoma). Report of three cases, 369

Vasa vasorum
Intracranial vessels lack vasa vasorum, 44
Vascular graft
Human umbilical artery for microvascular grafting. Experimental study in the rat, 737
Vascular occlusion
Failed aneurysm surgery. Reoperation in 115 cases, 848
Surgical experiences with giant intracranial aneurysms, 1009
Vascular reconstruction
Microsurgical anatomy of the proximal segments of the middle cerebral artery, 458
Surgical reconstruction of the proximal vertebral artery, 874
Vasogenic edema
The kallikrein-kinin system as mediator in vasogenic brain edema. Part 1: Cerebral exposure to bradykinin and plasma, 87
The kallikrein-kinin system as mediator in vasogenic brain edema. Part 2: Studies on kinin formation in focal and perifocal brain tissue, 97
Vasospasm
Effect of selective inhibitor of thromboxane A_2 synthetase on cerebral vasospasm after early surgery, 24
Effects of chlorpromazine on experimental delayed cerebral vasospasm, 857
Intimal proliferation of cerebral arteries after subarachnoid blood injection in pigs, 494
Intracarotid slow bolus injection of nimodipine during angiography for treatment of cerebral vasospasm after SAH. A preliminary report, 231
Intracranial vessels lack vasa vasorum, 44
Morphological changes of the basilar artery, ventricles, and choroid plexus after experimental SAH, 486
Outcome in 60 consecutive patients treated with early aneurysm operation and intravenous nimodipine, 864
The role of the prostacyclin-thromboxane system in cerebral vasospasm following induced subarachnoid hemorrhage in the rabbit, 1120
Vein of Galen
Occlusion of the great vein of Galen associated with a huge meningioma in the pineal region. Case report, 1136
Vena cava
Deep vein thrombosis and pulmonary emboli in neurosurgical patients: a review, 1055
Ventricle
Accessory cerebral ventricle of the occipital lobe. Morphogenesis and clinical and pathological appearance, 767
Fourth ventriculoceles with extracranial extension, 348
A model for predicting delayed intracranial hypertension following severe head injury, 695
Morphological changes of the basilar artery, ventricles, and choroid plexus after experimental SAH, 486

Ventricular drainage
Resolution of brain edema in severe brain injury at controlled high and low intracranial pressures, 707
Ventriculocele
Fourth ventriculoceles with extracranial extension, 348
Ventriculography
Experimental transcerebral fistula. Perineural olfactory CSF flow in the normal, hydrocephalic, and postoperative hydrocephalic dog shown by radionuclide ventriculography, 355
Sequential morphological and functional changes in kaolin-induced hydrocephalus, 918
Ventriculoperitoneal shunt
Cerebrospinal fluid ascites complicating ventriculoperitoneal shunting. Report of four cases, 180
The syndrome of normal-pressure hydrocephalus, 501
Vertebral artery
Intracranial dissecting aneurysms of the posterior circulation. Report of six cases and review of the literature, 882
Surgical reconstruction of the proximal vertebral artery, 874
Vertebral body tumor
An anterior surgical approach to the upper thoracic vertebrae, 686
Vertebrobasilar insufficiency
Surgical reconstruction of the proximal vertebral artery, 874
Vertebrobasilar system
Study of the posterior circulation in moyamoya disease. Clinical and neuroradiological evaluation, 1032
Video fluorescence
Distribution of hematoporphyrin derivative in the rat 9L gliosarcoma brain tumor analyzed by digital video fluorescence microscopy, 1113
Viral infection
Viral infections of the nervous system, 207
Visual function
Surgical experiences with giant intracranial aneurysms, 1009
Surgical management of suprasellar meningioma. Part 2: Prognosis for visual function following craniotomy, 642
Vitrectomy
Combined malignant lymphoma of the eye and CNS (reticulum-cell sarcoma). Report of three cases, 369
Volume-pressure relationship
Testing intracranial volume-pressure relationships. Letters, 804

Wallenberg's syndrome
Dissecting aneurysm of the vertebral artery. Report of seven cases and angiographic findings, 1038
Wrapping
Failed aneurysm surgery. Reoperation in 115 cases, 848
